JONAS BROTHERS AT VERIZON WIRELESS STORES

New Jersey based siblings, Kevin, Joe and Nick Jonas have become a nationwide phenomenon and one of the biggest success stories of the year. Some have even compared them to the Beatles. With heavy online presence, Top 40 mainstream airplay, countless magazine covers and national TV appearances, the band's popularity has grown by leaps and bounds. The tipping point came with their stellar performance at the American Music Awards, which catapulted the band to platinum status in less than one month. Most recently the band has performed at several Verizon Wireless Stores across the area. As usual SOS Security Incorporated protected this teen crazed band and its wild fans.
